Re: Ethical review of experiment " *Why We Cheat? Experimental Evidence on Tax Compliance*" (ETH-TE-1)

Dear Hector

Your application for ethical review for the experiment " *Why We Cheat? Experimental Evidence on Tax Compliance*" (ETH-TE-1) has been reviewed and approved by the CESS Ethics Committee.

The Committee has not evaluated your proposal for scientific merit, except to weigh the risk to participants and the aspects of the proposal related to potential risk and benefit. This does not replace any approval from your own university or department, or any other approvals which may be required.

You are advised that any major changes in protocol for this project must be reviewed and approved by the CESS Ethics Committee prior to implementation of the proposed change in any CESS labs.

Yours sincerely,

A handwritten signature in black ink, appearing to be 'RD' followed by a stylized flourish.
